Subject: Authorization – West GB Feed Tank Biosolids Disposal
Blue Ridge Paper Landfill No. 6
Haywood County, Permit #44-06, Document ID No. 17132

Mr. Dickens:

The Division of Waste Management, Solid Waste Section (Section) has completed the review of the document titled *Landfill No. 6, One-time Waste Disposal, West GB Feed Tank Cleaning Project - Biosolids and Soap, Permit Number 44-06* (DIN 17131). The document was received in the Asheville Regional Office on August 29, 2012.

The analytical results provided with the request indicate the biosolids and/or “soap” solids, are non-hazardous and non-liquid. In addition, a Permit modification request for the permanent addition of the biosolids and soap as an accepted waste has been submitted and the corresponding permitting activity fee has been paid. Based on this information, this letter serves as an authorization for the one-time disposal, in the Area-D, South disposal unit, of the biosolids and soap from West GB Feed Tank Cleaning Project. Disposal of the biosolids and soap must be managed in accordance with the currently approved Operations Plan. There are no permit conditions associated with this activity so no permit modification will be required and no permit fee assessed.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
